OPENING A CASE IN EXAMINE

We dramatically reduced the size of the case database in AXIOM 2.5 from 17GB to 10GB and made it 48% faster to open the case in AXIOM Examine.

DATE AND TIME FILTERING

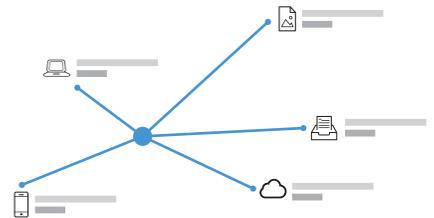

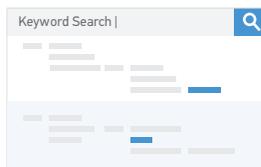

It's important to focus on specific timeframes during an investigation. The 6-month filter on this case finished 80% quicker than before.

KEYWORD SEARCH - ARTIFACTS

Keyword searches are essential for narrowing results. On average, AXIOM 2.5 reduced the time to complete keyword searches by 4m15s compared to AXIOM 2.4.

69% FASTER

FILE SYSTEM EXPLORER

Launching our File System Viewer is now 69% faster, making it easier to find evidence not supported by artifacts.

KEYWORD SEARCH - FILE SYSTEM

Searching from the root of the drive is also significantly quicker as we've sped up the time it takes to build the recursive view and to keyword search the file system by 84%.

CONNECTIONS

Learning where evidence came from and who it was shared with is critical. That's why we dropped the time it takes to build Connections from 4 1/2 hours to 1 hour.

CREATING A PORTABLE CASE

Sharing evidence with investigators is crucial for all cases. With AXIOM 2.5, it's 36 minutes faster to build a portable case.
